

GPS ELECTRONIC MONITORING

ACTIVE/PASSIVE GPS "ONE-PIECE" WMTD

(Wearable Miniature Tracking Device)

ADVANCED OFFENDER TRACKING IN A COMPACT, WEARABLE ONE-PIECE PACKAGE: The one-piece **wearable** miniature-tracking device has been built on the proven MTD platform and provides advanced active (real-time) and passive offender tracking information in a compact, wearable, one-piece ankle bracelet.

ACTIVE OR PASSIVE GPS TRACKING INFORMATION: The Active Tracking System is the world's leading GPS offender tracking tool. Monitoring offenders using Global Positioning Satellites (GPS) is a proven means to dramatically reduce recidivism in contrast to traditional monitoring.

WEARABLE MTD ONE-PIECE SPECIFICATIONS:

- Lightweight, wearable tracking device that securely attaches to the offender's ankle.
- 24-hour battery.
- Sealed unit with tamper detection and multiple tracking technologies.
- Multi-colored LEDs indicating power, GPS reception, and zone violations.
- Programmable soft key for offender communication and system activation.
- Offender violation notification via multiple vibrations and LEDs.
- Hypoallergenic, waterproof, and tamper resistant.
- Adjustable and easy- to- install strap.
- Weighs only 6 ounces.
- Dimensions: 2.5" wide x 4.5" tall x 1.5" deep.

HOW THE ONE-PIECE SYSTEM WORKS:

- Offenders are fitted with the lightweight and tamper-resistant tracking device.
- The WMTD then uses GPS, cellular and other advanced tracking technologies, including aerial imagery to accurately track the offenders and report their positions.
- Our Surveillance Data Center (SDC) then collects the information using our Client Enrollment Software.
- The CES can provide a broad selection of standard and customized reports as well as establish multiple inclusion and exclusions zones. All violations will be transmitted by text messaging, email, fax, or pager.
